Our Aims

To offer experiences to children that enable them to use their innate curiosity and desire to learn.

To provide an environment that is stimulating, loving and caring - and welcoming to all who use it.

To recognise the importance of working with families, involving them in their child's learning.

To give children the autonomy to develop and learn within a safe environment.

To offer opportunities with equal regard to all children and families, celebrating diversity and individuality and promoting anti-discriminatory behaviour to all those attending the nursery.

Our Ethos

We are committed to providing the highest quality of care and education to enhance the potential of all children.

We respect and value each child and family within the community we serve and strive to work in active partnership with all.

Our practitioners are partners in learning and provide a responsive child centred practice, in which children are supported to learn through play.

We respect and care for our rich learning environment as a place of both purpose and beauty, which supports the work and well being of all within our nursery.

If needed we will carry out Individual Education Plans and coordinate children's transition in to their next setting.
